# Commissioning Manual

1 **Connect Zerova DW30 charger to Noodoe OCPP URL (wss://ocpp.noodoe.com) before EV OS Commissioning**

2 **Grey out the QR code on the screen before activating the station.**

3 **Attach the Station Label Sticker as Shown Below**

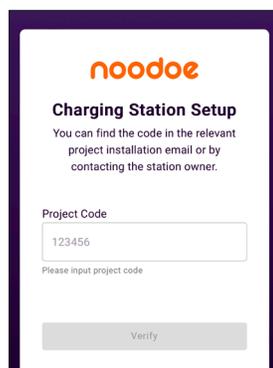

Station ID: 1234568

4 Noodoe EV OS Commissioning

Step 1

Scan the QR code to access the Installer Panel and initiate the charging station commissioning process.
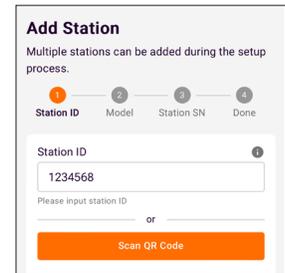

Step 2

Input the Project Code provided by Noodoe or the charge point operator.

Step 3

Verify that the 7-digit auto-populated Station ID matches **7 digits** on the Station ID stickers.

Step 4

Select the appropriate charger specifications:
- Output Details:
  30kW, single output
- Connector Type:
  CCS1

Step 5

To create the OCPP ID: Model Name + Version Identifier + S/N

1. Identify the charger's model name.
2. Locate the Version Identifier.
3. Find the charger's serial number (S/N).
4. Combine these elements for the OCPP ID:
   **Model Name + Version Identifier + S/N.**

For example:
Model Name = "DSWA601U0UD1PH"
Version Identifier = "1P1"
S/N = "V2230A107A0"
OCPP ID: "DSWA601U0UD1PH1P1V2230A107A0"

✅ Commissioning is now complete. The station can be found in Noodoe EV OS.
