

Commissioning Manual

1 Connect Zerova charger to Noodoe OCPP URL (<wss://ocpp.noodoe.com>) before EV OS Commissioning

2 Attach the Station Label Sticker as Shown Below.

Station ID: 1234568

Step 4

Select the appropriate Zerova specifications:

- Output Details:
7kW, single output
- Connector Type:
Type 1 (J-1772)

Step 5

To create the OCPP ID: **Model Name + Version Identifier + S/N**

1. Identify the charger's model name.
2. Locate the Version Identifier.
3. Find the charger's serial number (S/N).
4. Combine these elements for the OCPP ID:
Model Name + Version Identifier + S/N.

For example:

Model Name = "AWLU770001"

Version Identifier = "01P0"

S/N = "V2230A107A0"

OCPP ID: "AWLU77000101P0V2230A107A0"

Step 1

Scan either QR code to access the Installer Panel and initiate the charging station commissioning process.

Step 2

Input the Project Code provided by Noodoe or the charge point operator.

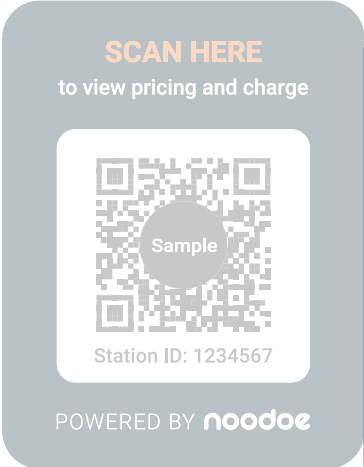

Step 3

Verify that the 7-digit auto-populated Station ID matches the 7 digits on the Station ID stickers.

Commissioning is now complete. The station can be found in Noodoe EV OS.
